

GREATER VANCOUVER COMMUNITY SERVICES SOCIETY

Three Year Accreditation Awarded June 2006

GVCSS is pleased to announce that it achieved a Three-Year Accreditation outcome to June 2009 as awarded by CARF (Commission on Accreditation of Rehabilitation Facilities).

GVCSS launched its Accreditation process in January 2005, and after many months of concerted effort by Community Living employees, Management and other administrative staff, GVCSS was prepared for its formal survey which was conducted by CARF representatives from June 12 – 14, 2006. Formal notification of the Three-Year Accreditation award was received in July 2006, and this achievement represents the highest level of accreditation that may be awarded to an organization by CARF.

As part of the Accreditation process we produced information bulletins demonstrating our progress over the past year and have retained these below for your reference. We also wish to share results of the formal survey and invite you to read the CARF Survey Report for Greater Vancouver Community Services Society which is also posted below.

Congratulations go to everyone who worked so diligently towards the accreditation of our Community Living program.
