

**Simon Fraser HandyDART Operations  
Move to New Location on April 1, 2006  
February 27, 2006**

The staff at our Simon Fraser HandyDART program will soon be moving to new and more central offices in New Westminister. The Society has acquired offices conveniently located at Westminister Centre (#200 - 555 6th Street, New Westminister), to house all of the administrative staff at Simon Fraser HandyDART. As one of the largest HandyDART custom transit providers in the province, our Society believes it is important that our offices are truly accessible to the people who require our services. By relocating to the uptown section of New Westminister, we expect that the users of the HandyDART service will be better able to speak face to face with our staff in order to resolve questions or concerns.

We thank TransLink and Mayor Wayne Wright for all their support and assistance to ensure that this vital transit program continues to be based in New Westminister.
